

Online Vaping Information Session

Thursday 26th October, 4pm - 5pm

Is your school, sports club or youth club concerned about young people vaping?

Do you need support to inform students and young people about the potential risks of vaping?

Join Northern Ireland Chest Heart and Stroke as we host a free, live Vaping Information Session for parents, teachers, school nurses, and youth workers who want to learn more about vaping.

Hear from expert clinicians and health professionals and submit your vaping questions to be answered by the panel in our Q&A session on the day.

We will be joined by:

- **Jessica Perry**
Schools Health Promotion Manager, Northern Ireland Chest Heart & Stroke
- **Neil Johnston**
Policy and Public Affairs Manager, Northern Ireland Chest Heart & Stroke
- **Professor Mike Shields**
Recently retired as a paediatric consultant at the Royal Belfast Hospital for Sick Children and NICHS Board Member
- **Dr Dara O'Donoghue**
Consultant Paediatrician / Senior Clinical Lecturer, Royal Belfast Hospital for Sick Children / QUB Centre for Medical Education
- **Dr Naomi Catherine Kirk**
Paediatrician / RCPCH Health Improvement Representative for Northern Ireland

The session will cover:

- Our vaping campaign – what we're saying and why
- The emerging evidence on vaping
- What support is available to quit?
- Q&A with the panel

We are hosting this session as part of our campaign on Vaping and it's potential risks taking place during October.

Find out more about the campaign and book your place on the session at
